What we do:

Our unique philosophy and dedicated staff empower autistic people to be themselves at home and in the community.

“We celebrate our artists, accept who they are, and give them a voice to express themselves freely through the arts.” – Veronica Federiconi, CEO

We celebrate neurodiversity

Our Mission is to create meaningful opportunities that enrich the lives of autistic people, their families and their communities.

Our Individualized programs and services provide support for autistic children and adults, and their families.

Our resources and workshops educate families and community members seeking to broaden their understanding of autism and how to create a more adaptive environment.
